# LED PIXPAD TRI-16 DMX

## 16 X HIGH POWER TRI-COLOUR LED

Every now and then a new product comes along which changes the way we do our shows and events. The ShowPro PixPad is one of these ground breaking products.

It provides a very professional level of features whilst still remaining affordable, portable, lightweight and extremely useful. It provides both high levels of light output, which you can use as a standard wash type fixture, yet supplies even colour across all of the pixels which you have individual control over. This means the PixPad is going to feature in a large amount of your shows, events and installations.

With individual control of each RGB pixel, when placed together in quantities, allows users to even scroll text and advanced colour chases. However there is also a large number of on-board programs which can run in stand-alone mode to ensure a simple and quick set up when required.

### Specifications

<b>Product</b>	LED PixPad Tri-16 DMX
<b>Code</b>	LEDPIX016
<b>Lamp Source</b>	16 x High power 10w tri-colour led
<b>Includes</b>	Rigging bracket Camlock connections to build larger walls Neutrik powercon in/out Inbuilt macros
